

Support Options

Webinars

= Web-based seminars

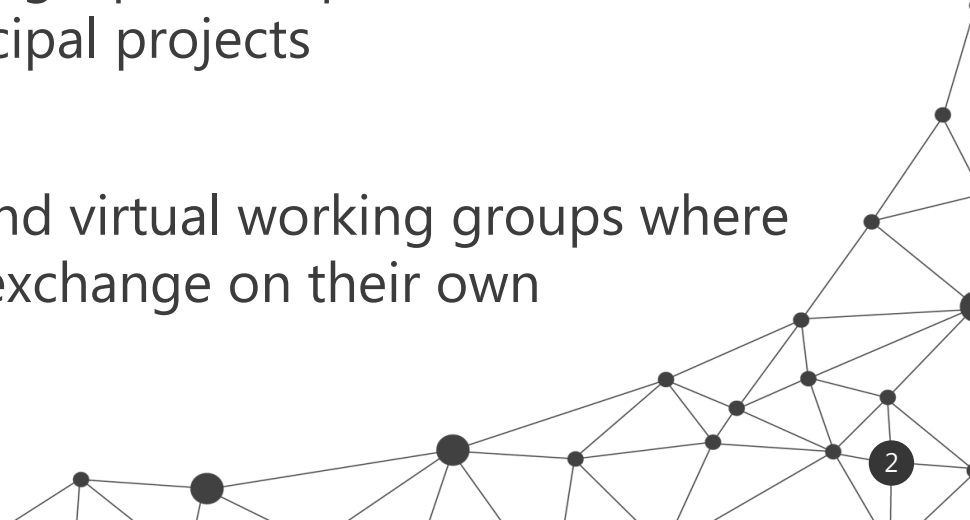

What for? Disseminate the good practices in sustainable urban development

For whom? Municipal practitioners from different countries who want to continue their exchange and deepen their understanding of a common challenge

How? 2 modalities:

- learn together through exchange, peer-to-peer consultations and further development of municipal projects
- Expert-animated webinars

Combines both fixed sessions and virtual working groups where participants can organize their exchange on their own

Expert missions

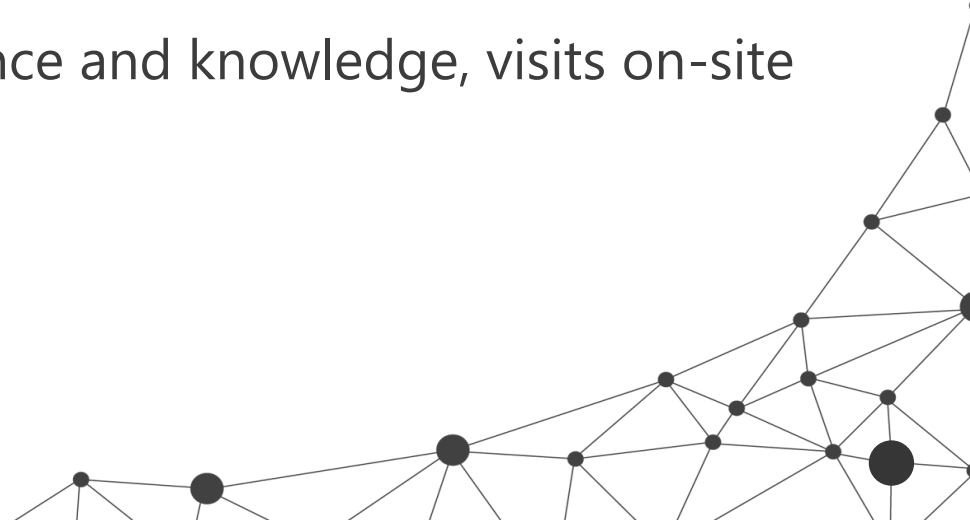

What for? Provide relevant practical experience, expert know-how and targeted support to municipalities in planning and developing their projects

For whom? Municipalities who seek specific, additional knowledge from internationally recognized experts.

Relies on Connective Cities pool of experts

How?

- 3-5 days
- Experts bring in their experience and knowledge, visits on-site

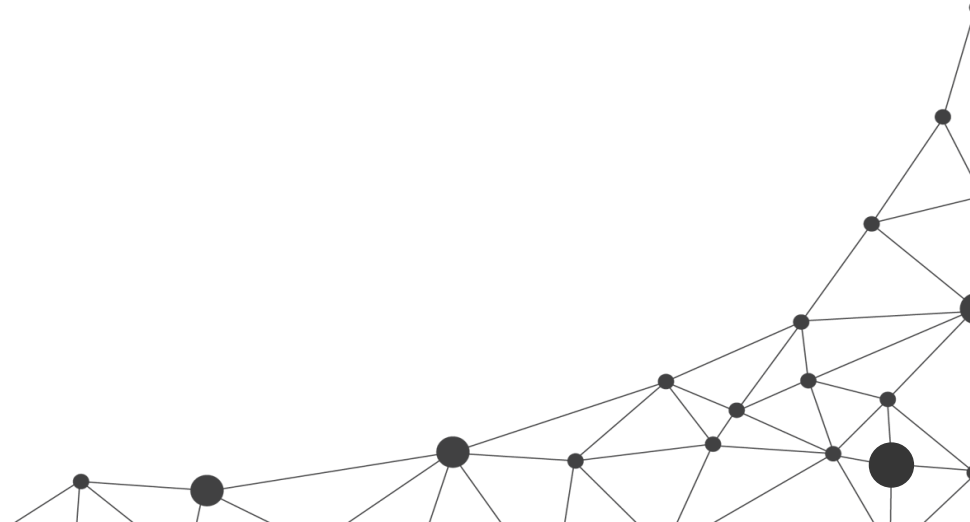

Local project workshops

What for? Concretisation and strategic revision of the planning of local change projects

For whom? Municipalities with a concrete, planned or ongoing project who wish to receive an external perspective and develop fresh ideas

How? the workshops are held in the municipalities in which the projects are sited, with participation from international practitioners
