# The problems...

*From existing top-down approach*

No  
appropriate  
policy

No land for  
housing the  
poor

More demand  
than supply

More & faster  
rate of  
migration

Formal housing  
do not match  
with informal  
system

The poor have no  
access to any  
loan & finance

No finance for  
housing the  
poor

Governments  
lack knowledge  
about the poor

Centralized  
government

Issues of  
Rights

The poor are  
not organized  
to repay back

Resettlements  
always too far

Cities have little  
responsibility and  
capacity

Evictions

**The poor play NO role!**

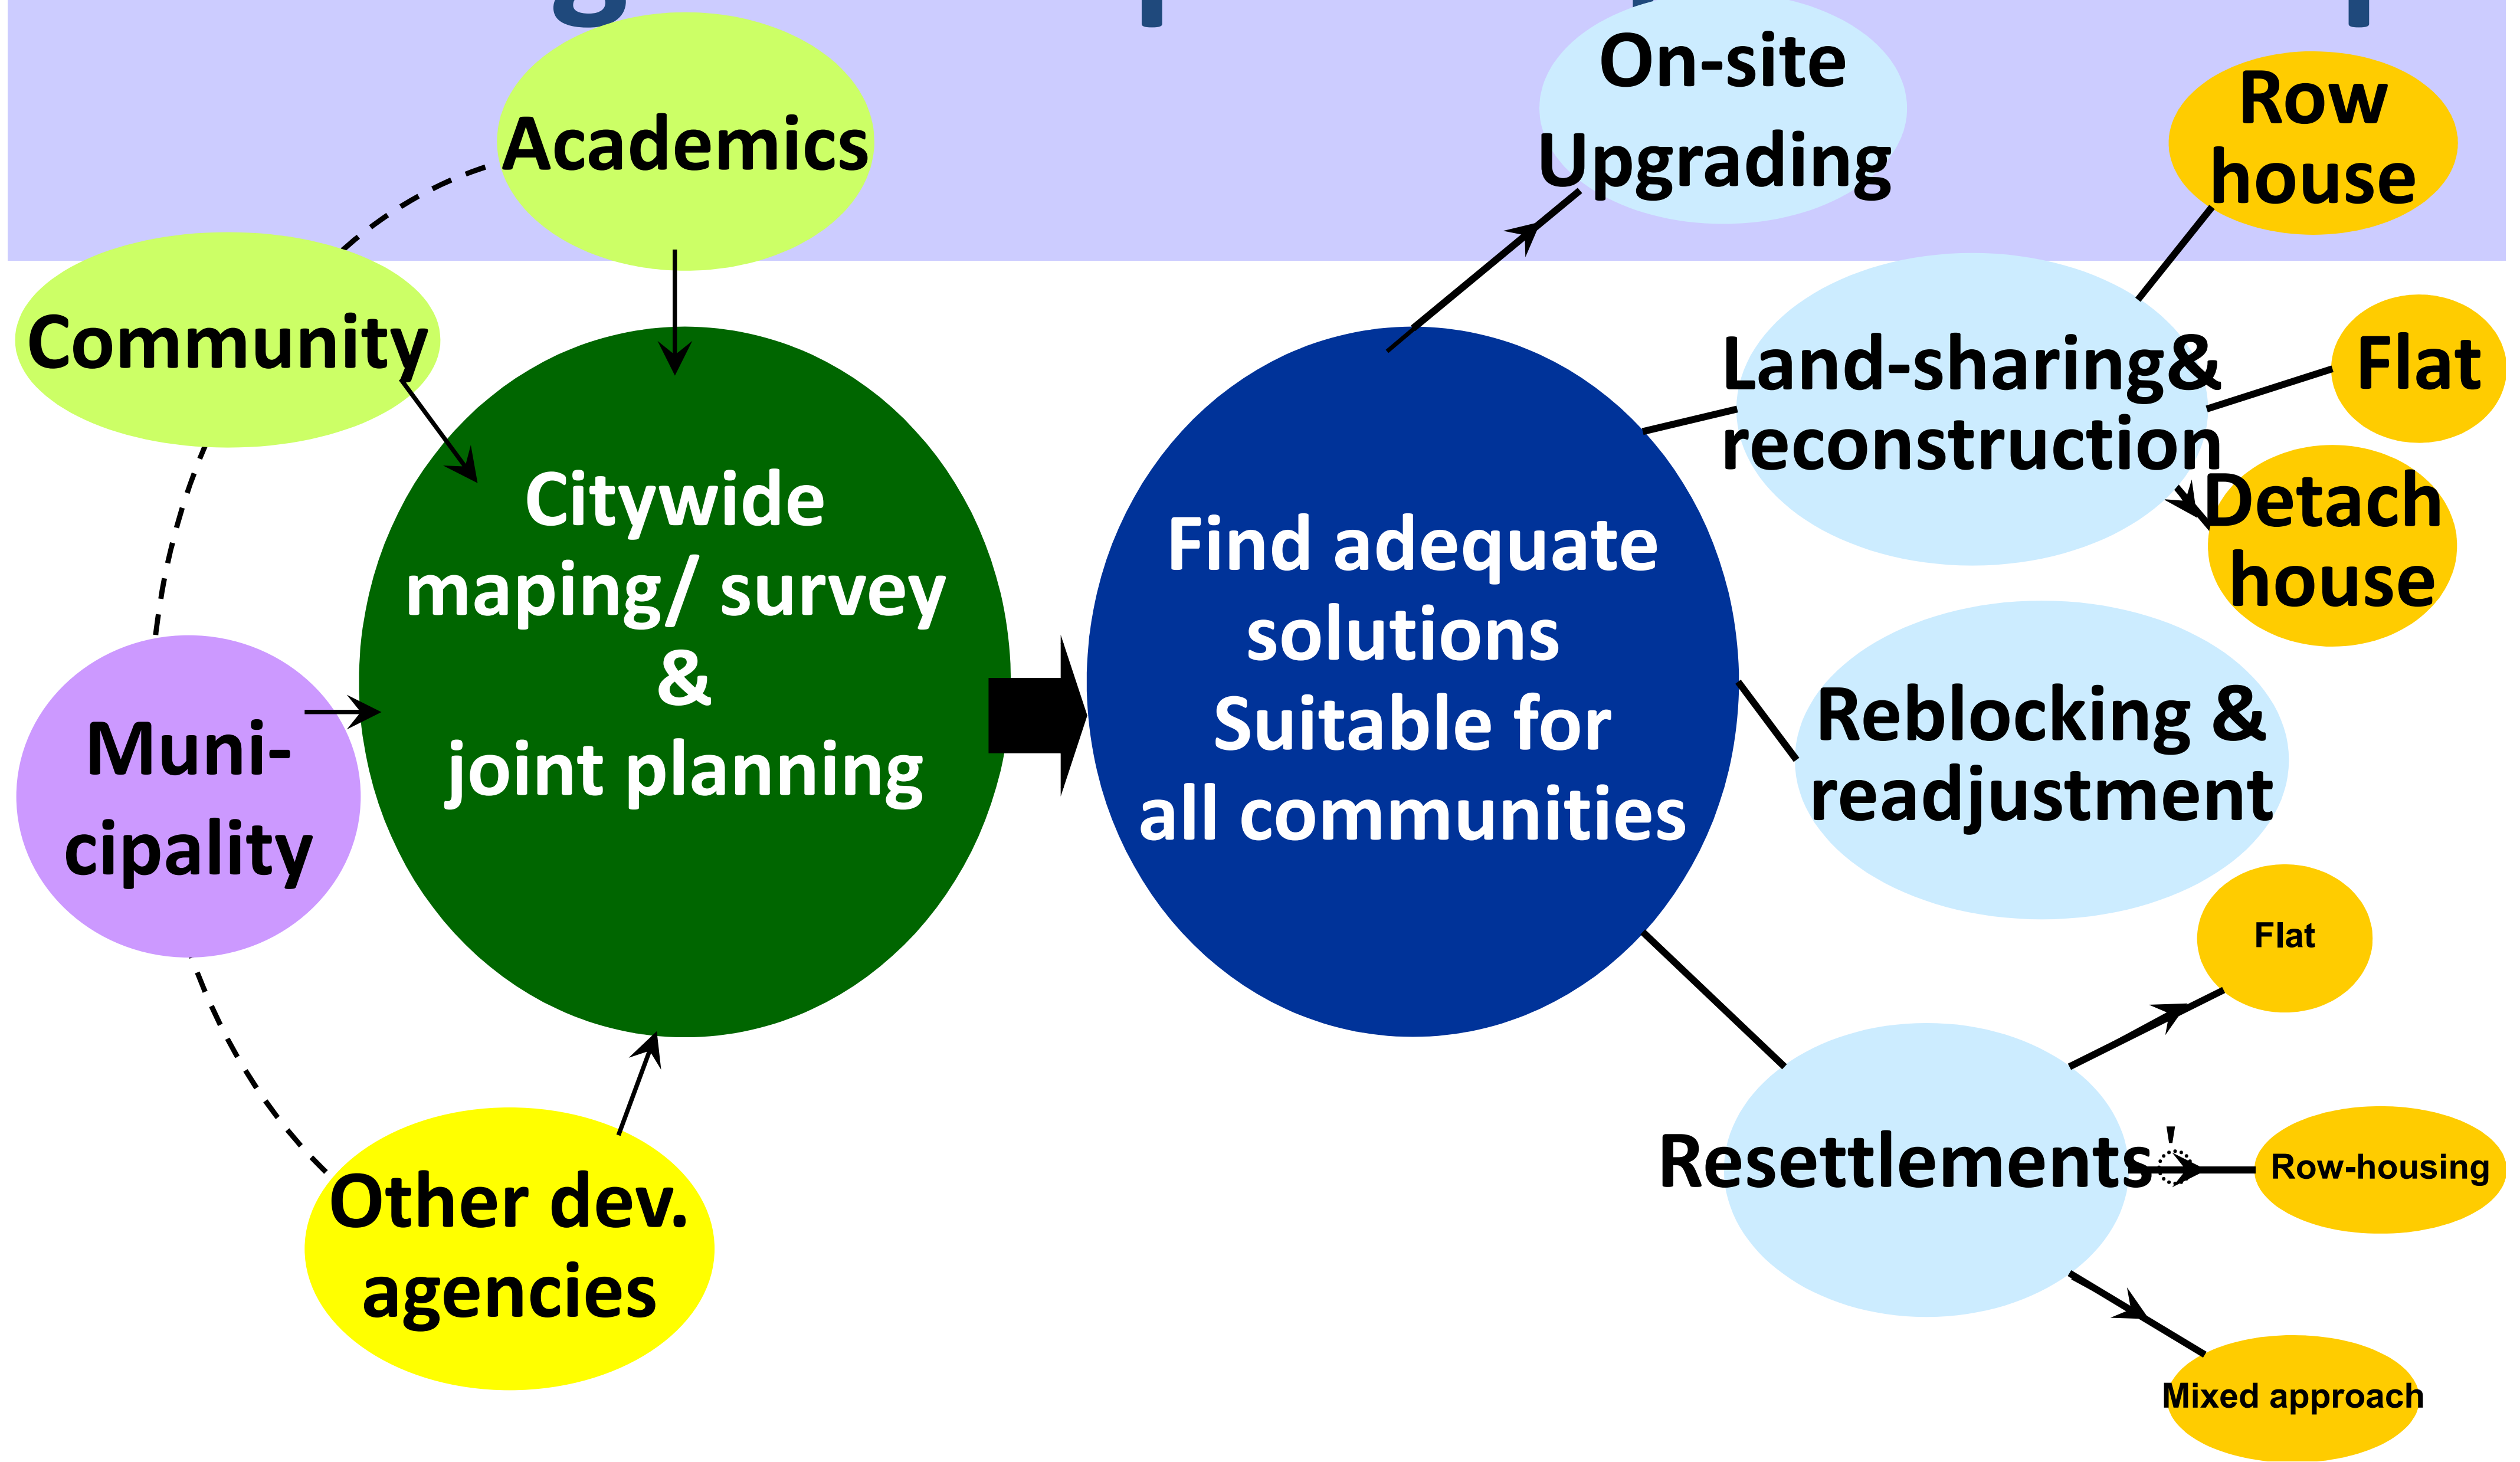

# Needs & challenges

## Citywide Scale vs. Project approach

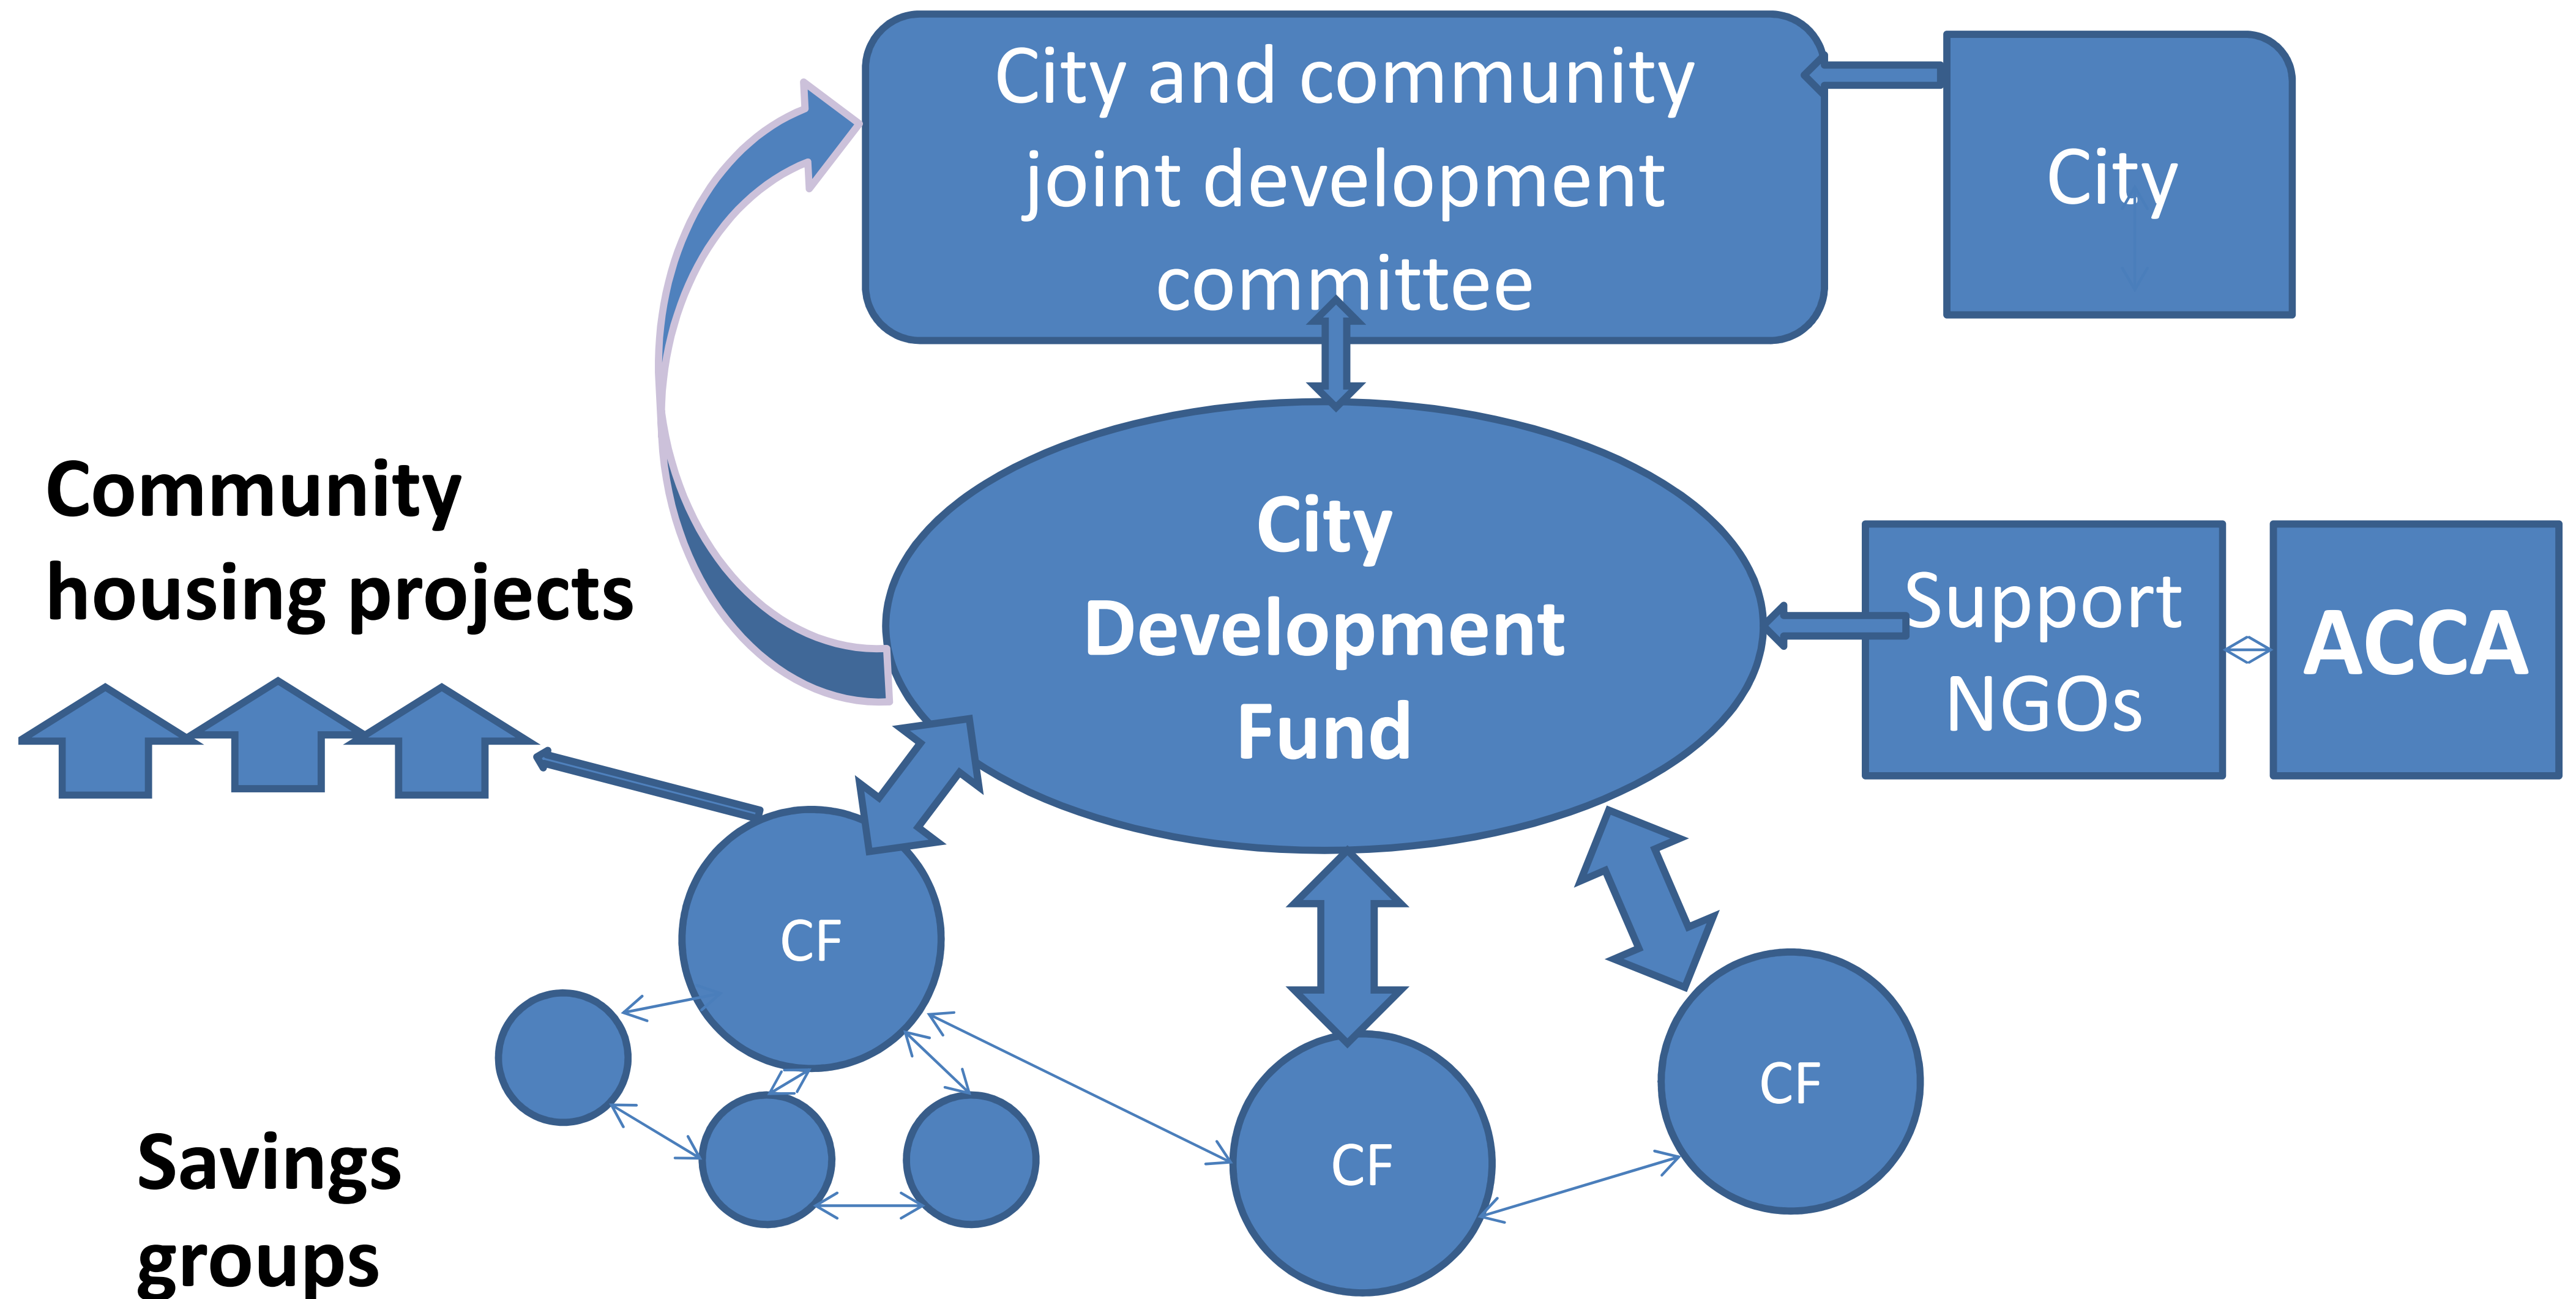

- **Active demand-driven:** Support urban poor communities to be the main actors and owners'
- **City-wide :** make change at the real scale of the problems covering all poor communities in the city. Decentralize the work to communities and cities to work as partners in city joint development process.
- **New Supportive finance system:** new active community finance and a City Development Fund
- **Integrated Holistic Approach:** Develop secure housing with integrated approach ; better social, economic, democratic, and healthy community

# LESSONS LEARNT

- COMMUNITIES AS THE PRIME SOLUTION-MAKERS **take the whole boat! *Everybody!* Affordable or Unaffordable.**
- EMPHASIS ON CONCRETE ACTION & REAL NEEDS AS THE DRIVING FORCE : **gives financial tools directly to the hands of poor communities to meet their needs - *right away !***
- CITYWIDE THINKING, CITYWIDE ACTION & EQUAL PARTNERSHIP: **each city can solve their problems if they work with their people as a team.**
- SMALL AND FLEXIBLE FINANCE **allows communities and local partners to work together; to unlock other resources.**
- **THE BUILDING BLOCK OF A PEOPLE'S FINANCIAL SYSTEM IS THE COMMUNITY SAVINGS GROUP**
