of Community-based  
Waste Management in  
Langata**

10 -12 October 2017 -  
Nairobi, Kenya

# PROJECT IDEA Nakuru, Kenya

Population: 473,000

## Involved actors

- Civil society
- Local authorities
- County assembly
- Development partners
- Private sector
- Ministry of Education
- NGOs

## Creation of a waste recovery plan

- Developing a task force with public consultation, supervised by a steering committee, with relevant stakeholders, approved by local authorities

## Provision of adequate funding

- Lobbying the county assembly and engaging development partners

## Improvement of market access for recyclables

- Conducting a market survey for recyclables,
- Building capacities and setting incentives for local companies and residents

## Increase awareness among residents

- Conduct public campaigns, design and disseminate info material in cooperation with education partners

## Positive side effects

- Extension of landfill lifespan
- Reduced costs for SW operations
- Job creation
- Climate change mitigation

## Challenge

Low recycling /  
recovery rate  
(~20%)

## Objective

Increased  
resource  
recovery

## Good Practices

### Practical examples from experts for experts

Simply select your area of interest and read how other cities deal with their challenges! For each example, there is a contact person, you can contact.
