

INTERNATIONAL COMMUNITY OF PRACTICE
FOR SUSTAINABLE URBAN DEVELOPMENT

Federal Ministry
for Economic Cooperation
and Development

SERVICE AGENCY
COMMUNITIES IN ONE WORLD

PARTNERS

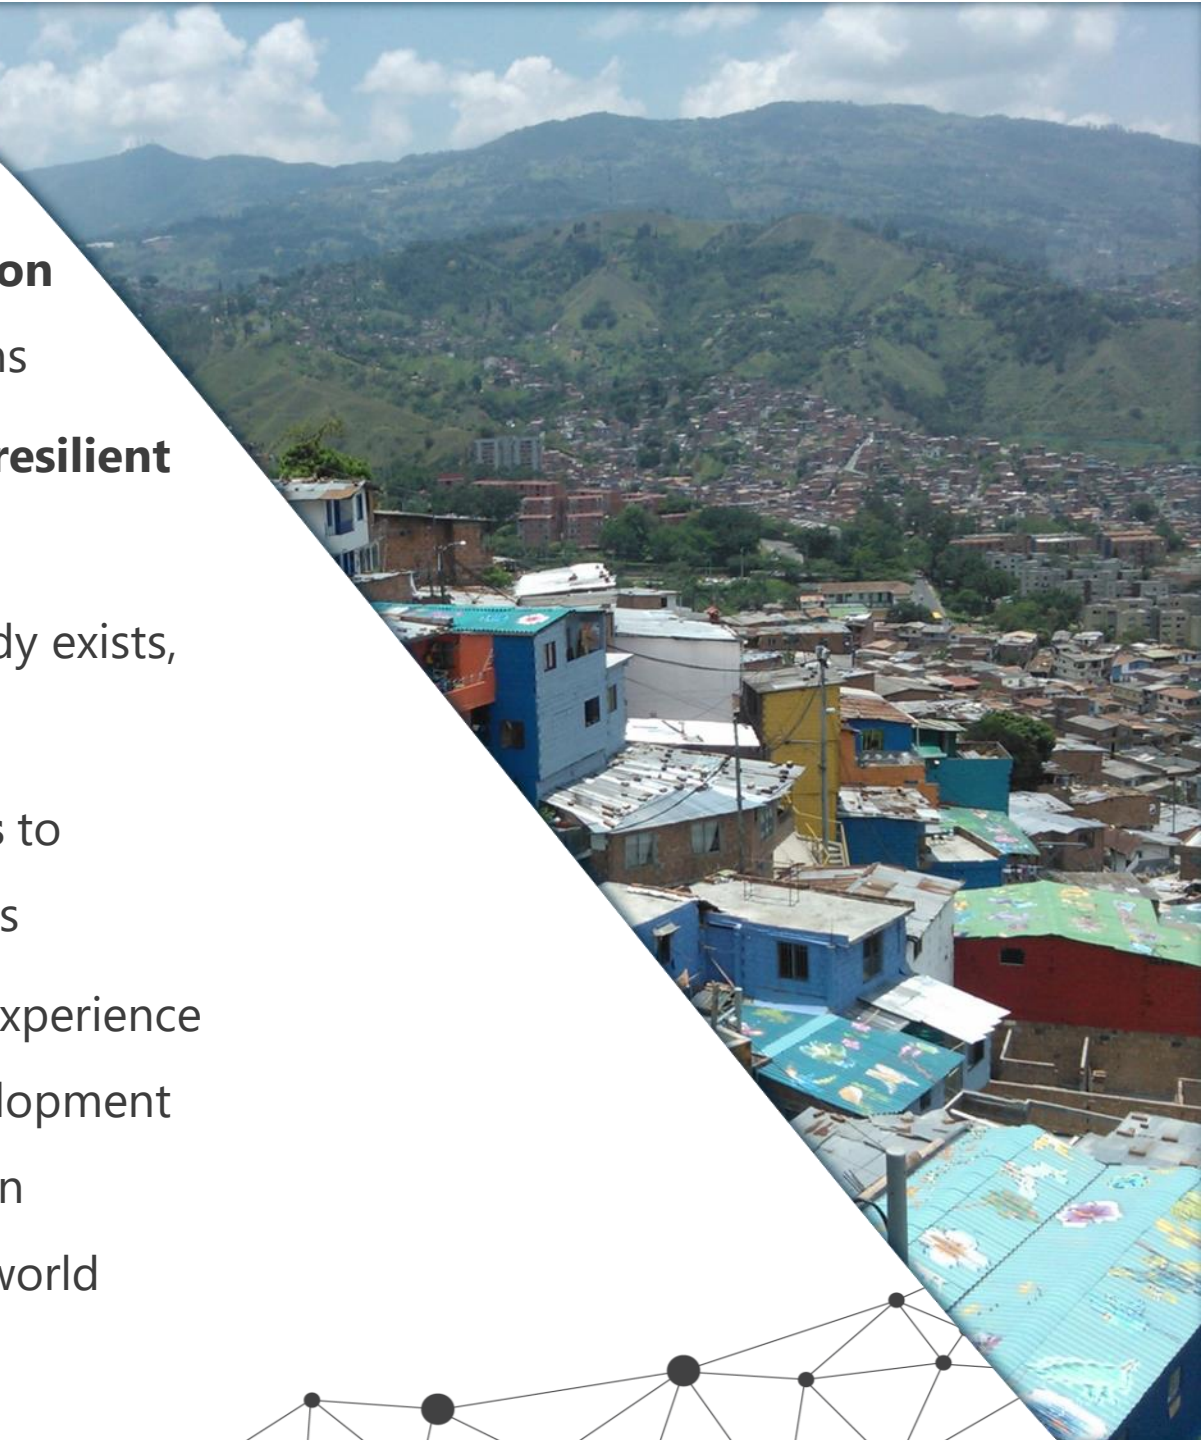

A cooperation between:

- Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ)
- German Association of Cities
- Engagement Global / Service Agency Communities in One World
- Funded by BMZ

BACKGROUND

- **Challenges of urbanisation** call for innovative solutions
- Need for **inclusive, safe, resilient and sustainable cities**
- Variety of **solutions** already exists, but not widely known
- Lack of **systematic access** to practice-oriented solutions
- ➔ Mobilisation of practical experience in sustainable urban development for **joint learning** of urban stakeholders around the world

OBJECTIVES OF CONNECTIVE CITIES

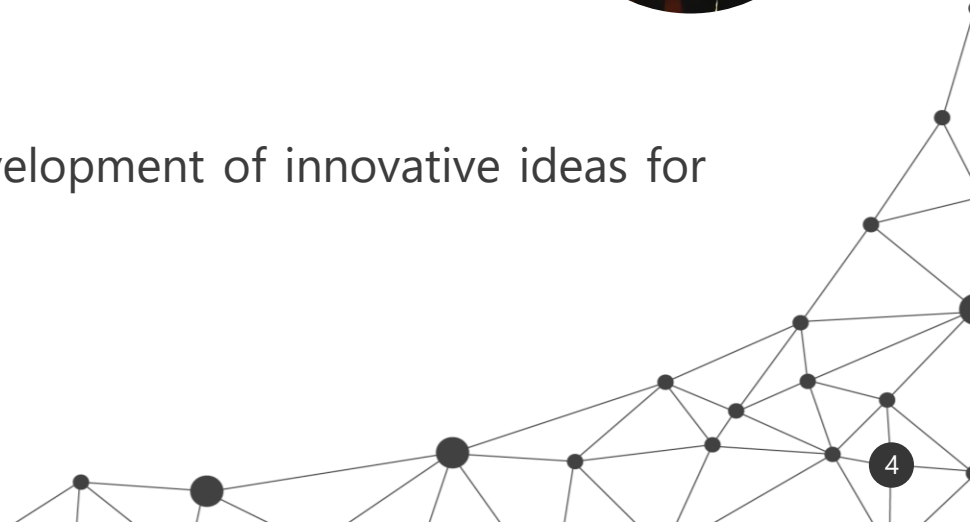

To facilitate worldwide **networking** between urban actors from politics, administration, business, science and civil society

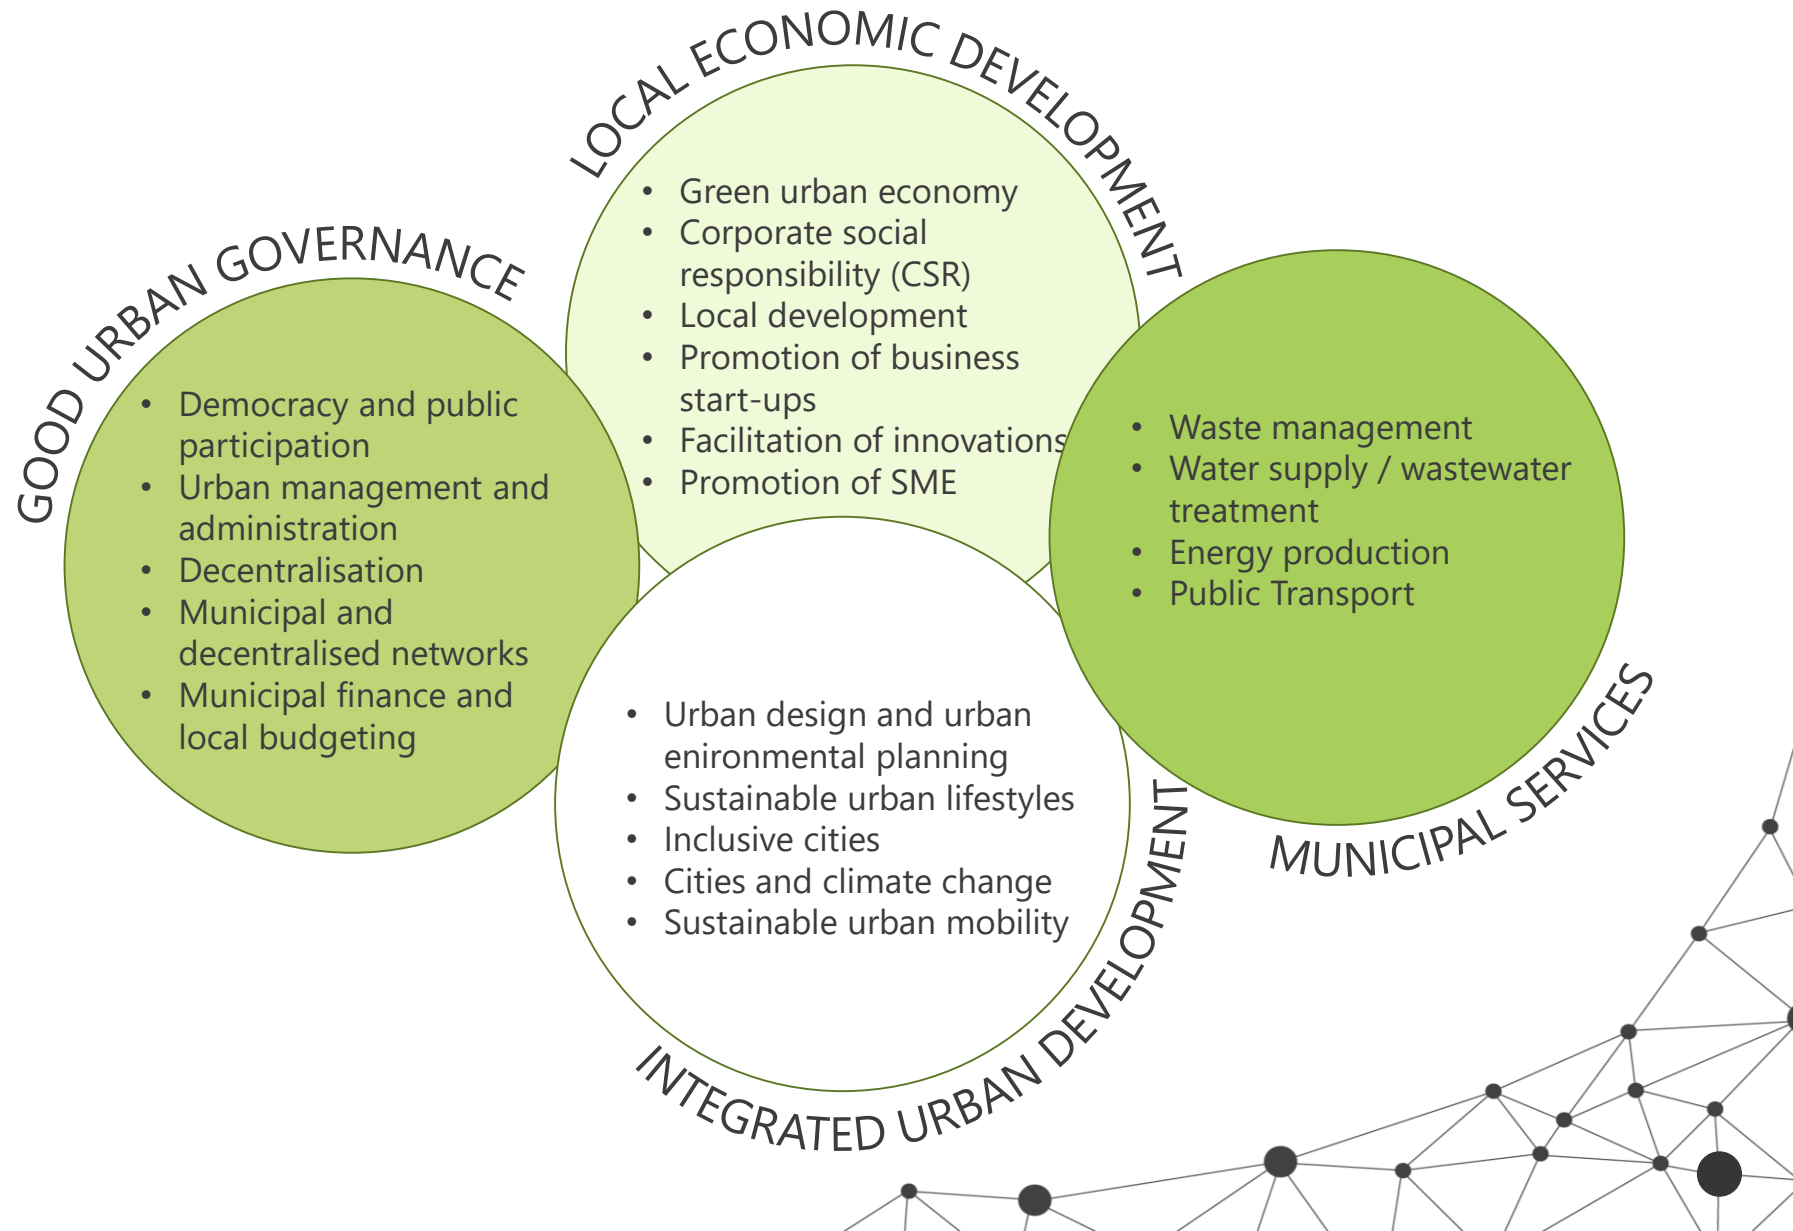

To support a systematic and application-oriented **exchange** of experience on good practices and through peer-to-peer-consultations

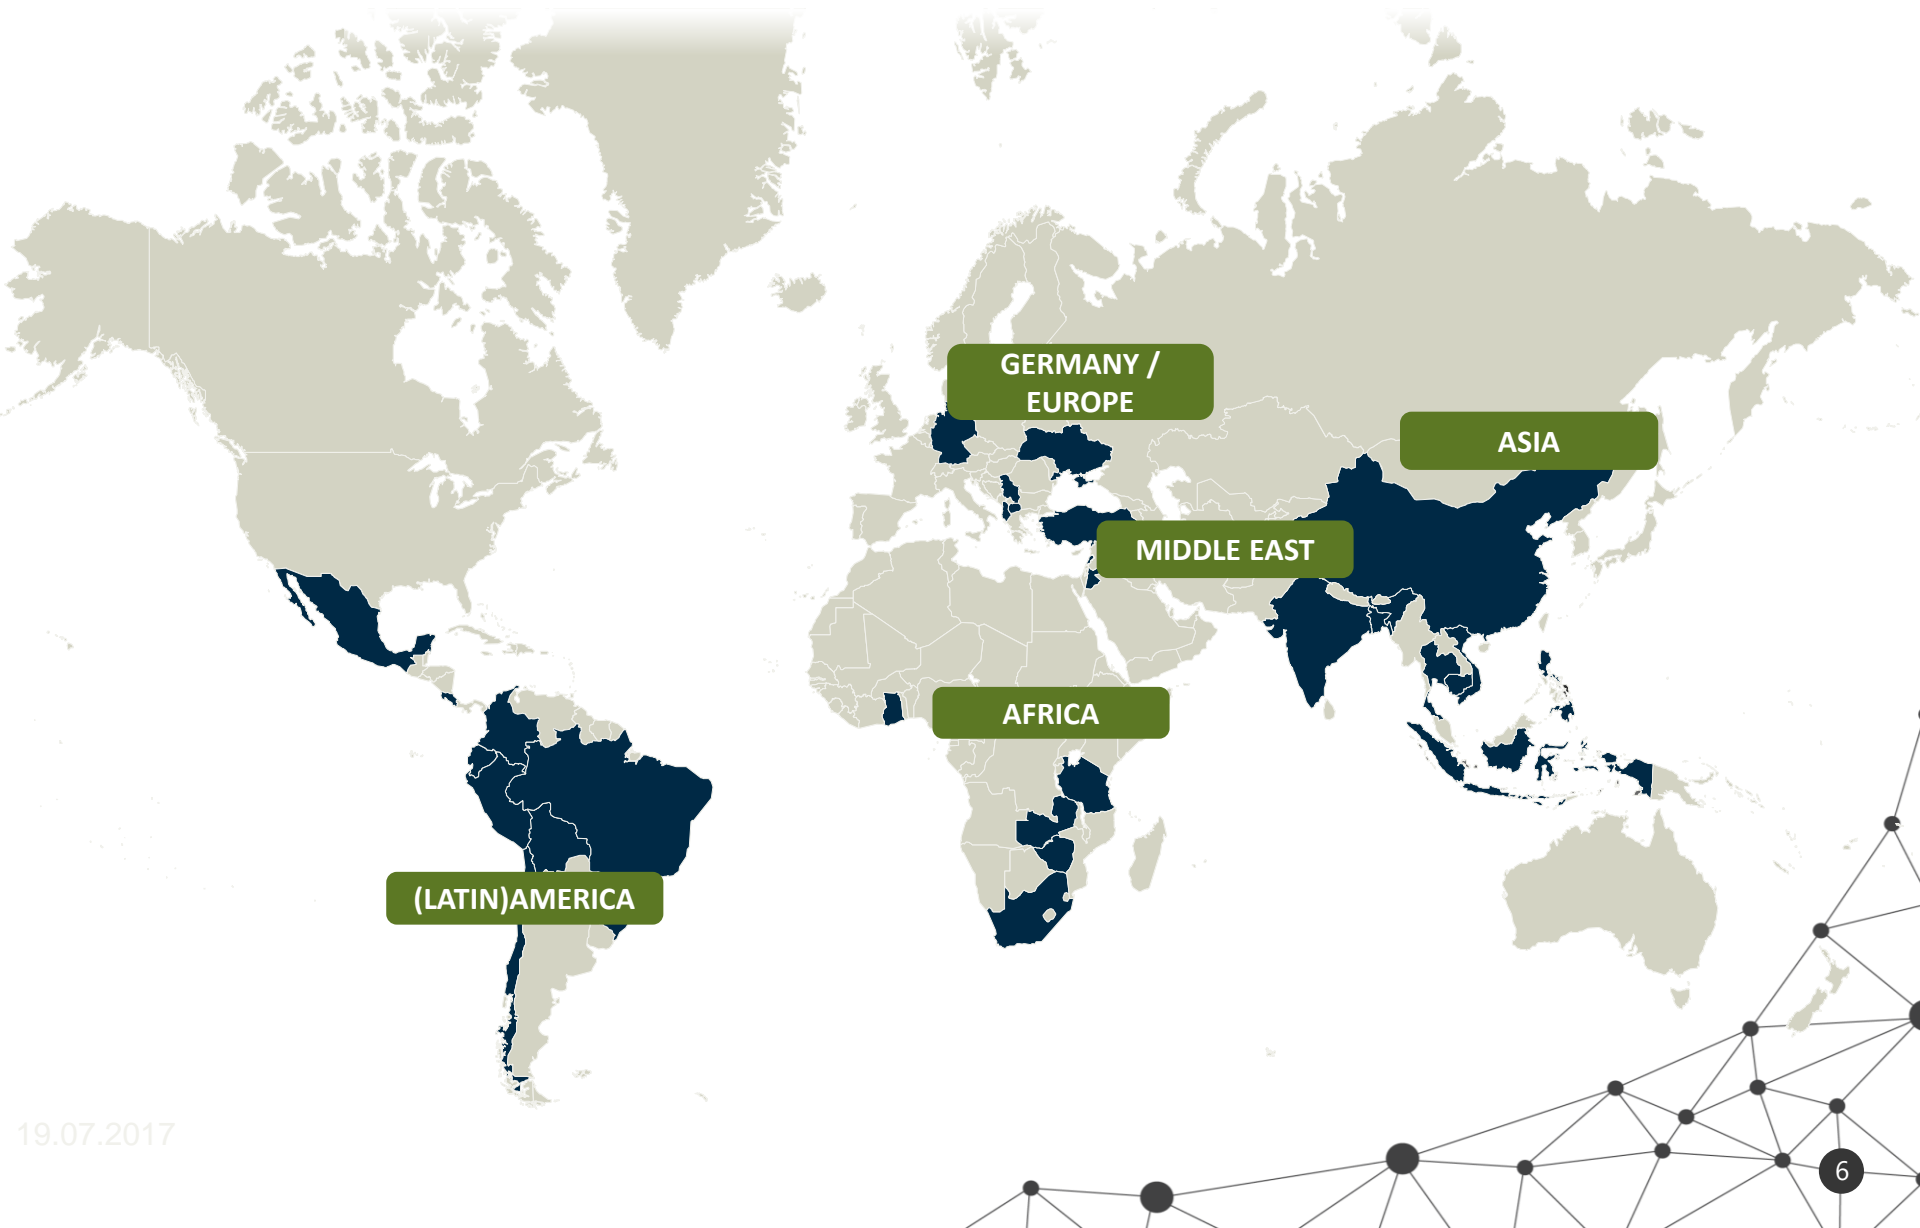

To support the development of innovative ideas for **urban projects**

PRACTITIONERS'
WORKSHOP

PROJECTS

**From Waste to Resources:
Integrated Solid Waste Manage-
ment in Sub-Saharan Africa**

14 -17 April 2015 -
Kinondoni, Tanzania

**Rethinking Public Service Delivery - Innovative
Solutions for Managing and Financing Public Services**

14 -16 October 2014 - Province Gauteng, South Africa

PROJECT IDEA Nakuru, Kenya

Population: 473,000

Involved actors

- Civil society
- Local authorities
- County assembly
- Development partners
- Private sector
- Ministry of Education
- NGOs

Creation of a waste recovery plan

- Developing a task force with public consultation, supervised by a steering committee, with relevant stakeholders, approved by local authorities

Provision of adequate funding

- Lobbying the county assembly and engaging development partners

Improvement of market access for recyclables

- Conducting a market survey for recyclables,
- Building capacities and setting incentives for local companies and residents

Increase awareness among residents

- Conduct public campaigns, design and disseminate info material in cooperation with education partners

Positive side effects

- Extension of landfill lifespan
- Reduced costs for SW operations
- Job creation
- Climate change mitigation

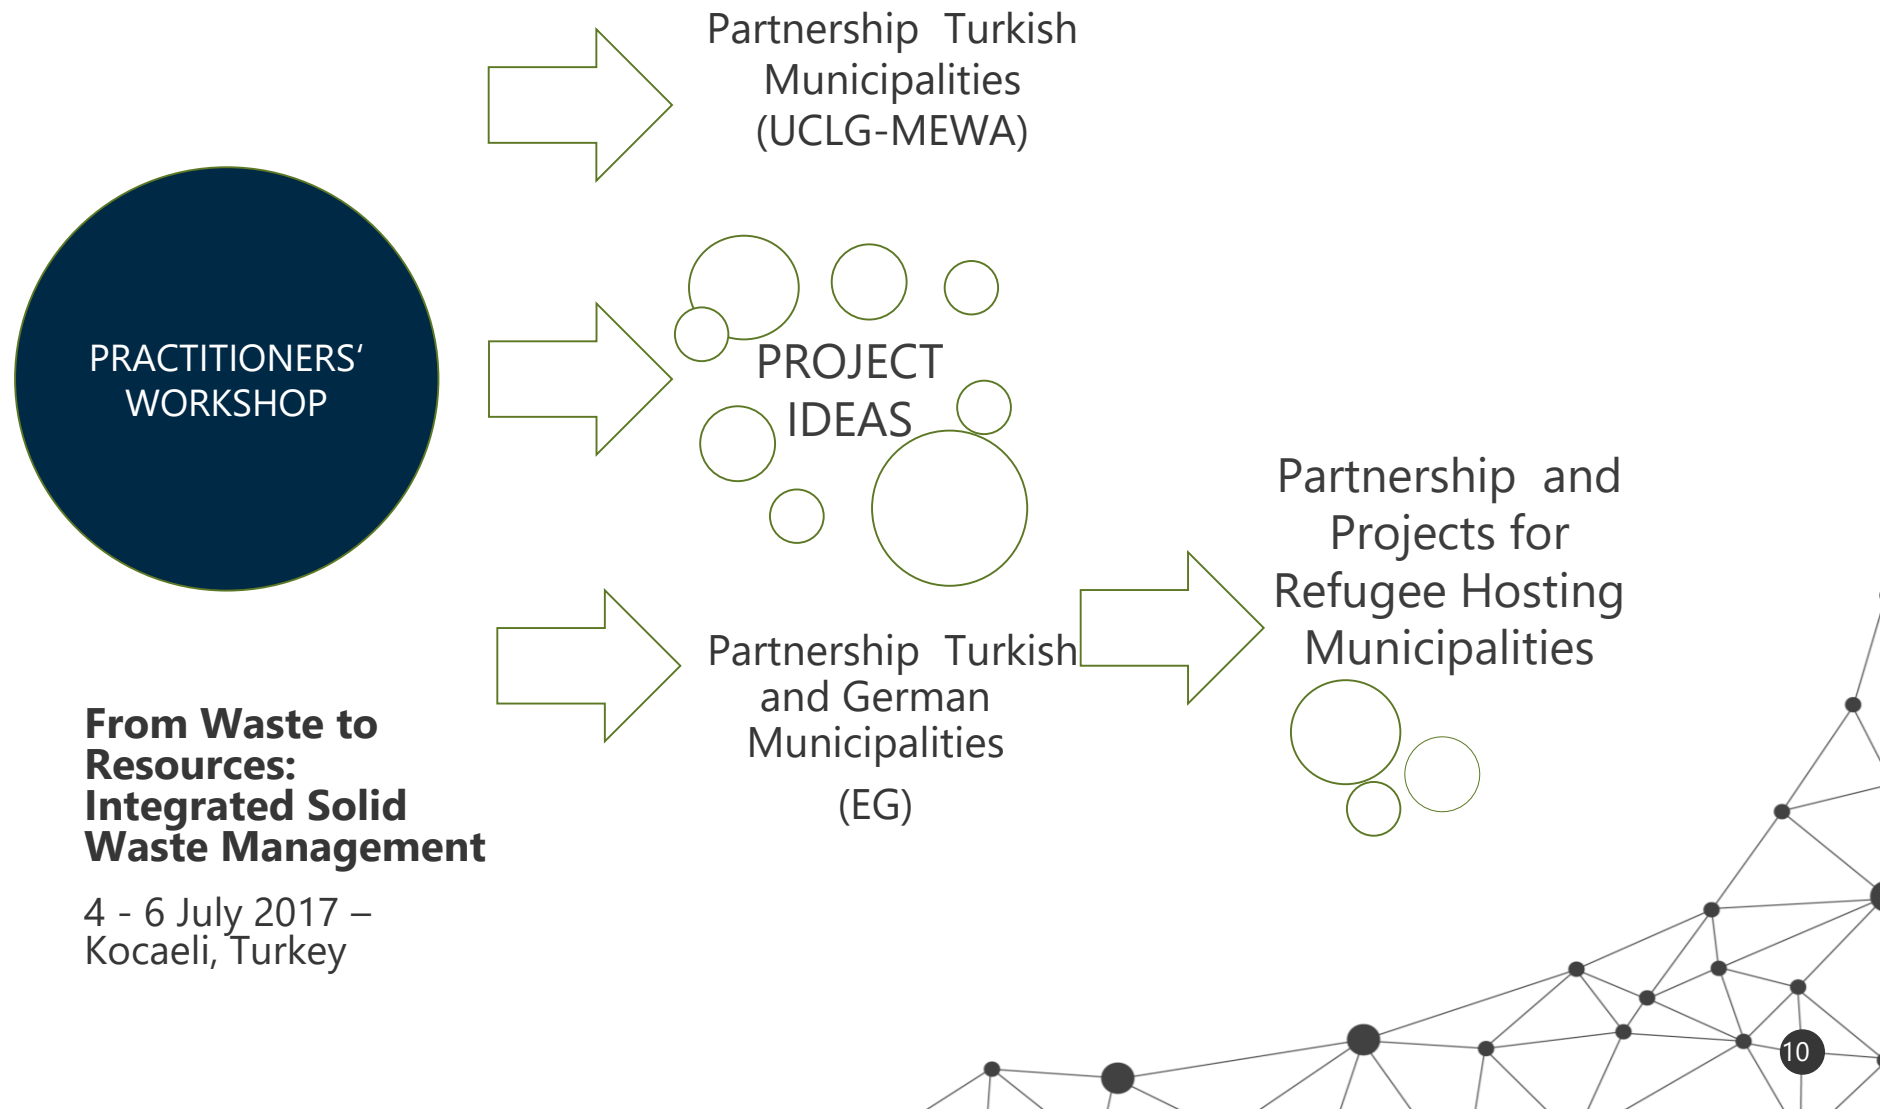

Challenge

Low recycling /
recovery rate
(~20%)

Objective

Increased
resource
recovery

BENEFITS

- Access to international know-how and to innovations as well as practical experiences about urban transformation processes
- Involvement in international networks among dedicated practitioners with hands-on experience
- Development of individual and institutional capacities for local innovations based on state-of-the-art learning concepts and technology
- Implementation of innovative and collaborative projects

OBJECTIVES FOR THE WORKSHOP

- Foster **exchange and collaboration** among participants from different cities in Turkey and Germany from the waste management sector
- Support practice-oriented **exchange on good practices** in SWM
- Provide **peer-to-peer advisory** services in a conducive and creative workshop environment
- Develop capacities of participants to analyze existing SWM systems and create **local action plans**
- Define future **support measures** to strengthen capacities for projects as well as for **continuous exchange** through the community of practice
