

Project overview

- Good Practice Title: Participatory budget – a means for building up constructive state-society relations

There are not legal provisions at national level for participatory budgets. The procedure is defined at local level and each municipality has to come up with provisions. However, there are best practice which are shared so the process is very similar in municipalities who are engaged in participatory budgets.

Certainly it is an annual process linked to the fiscal year. The way municipalities deal with it differs slightly because municipalities can fix the % up to 5% of their budget for participatory budgets.

1. How We Got Here

Ukrainian
Revolution of
Dignity

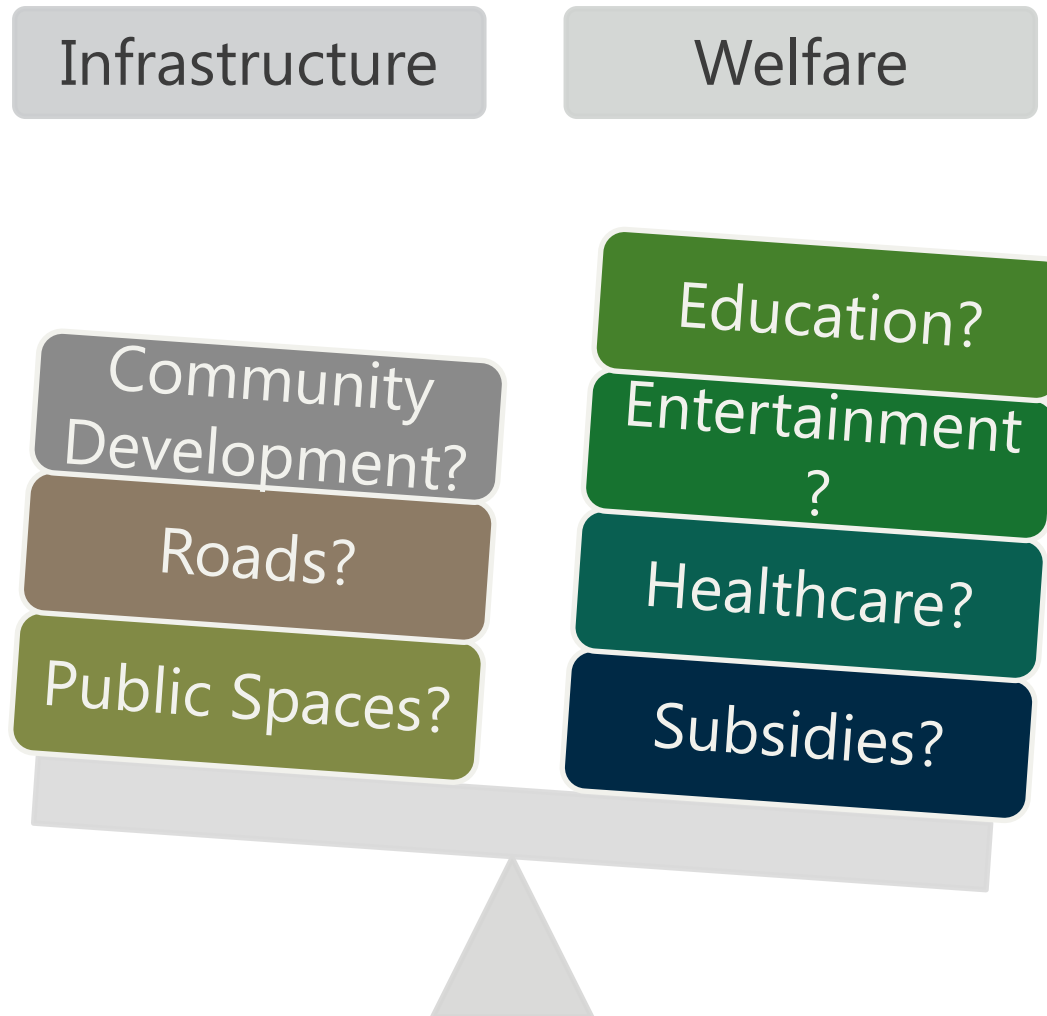

Demand for
Autonomy

Ukraine's
Decentralization
Reform

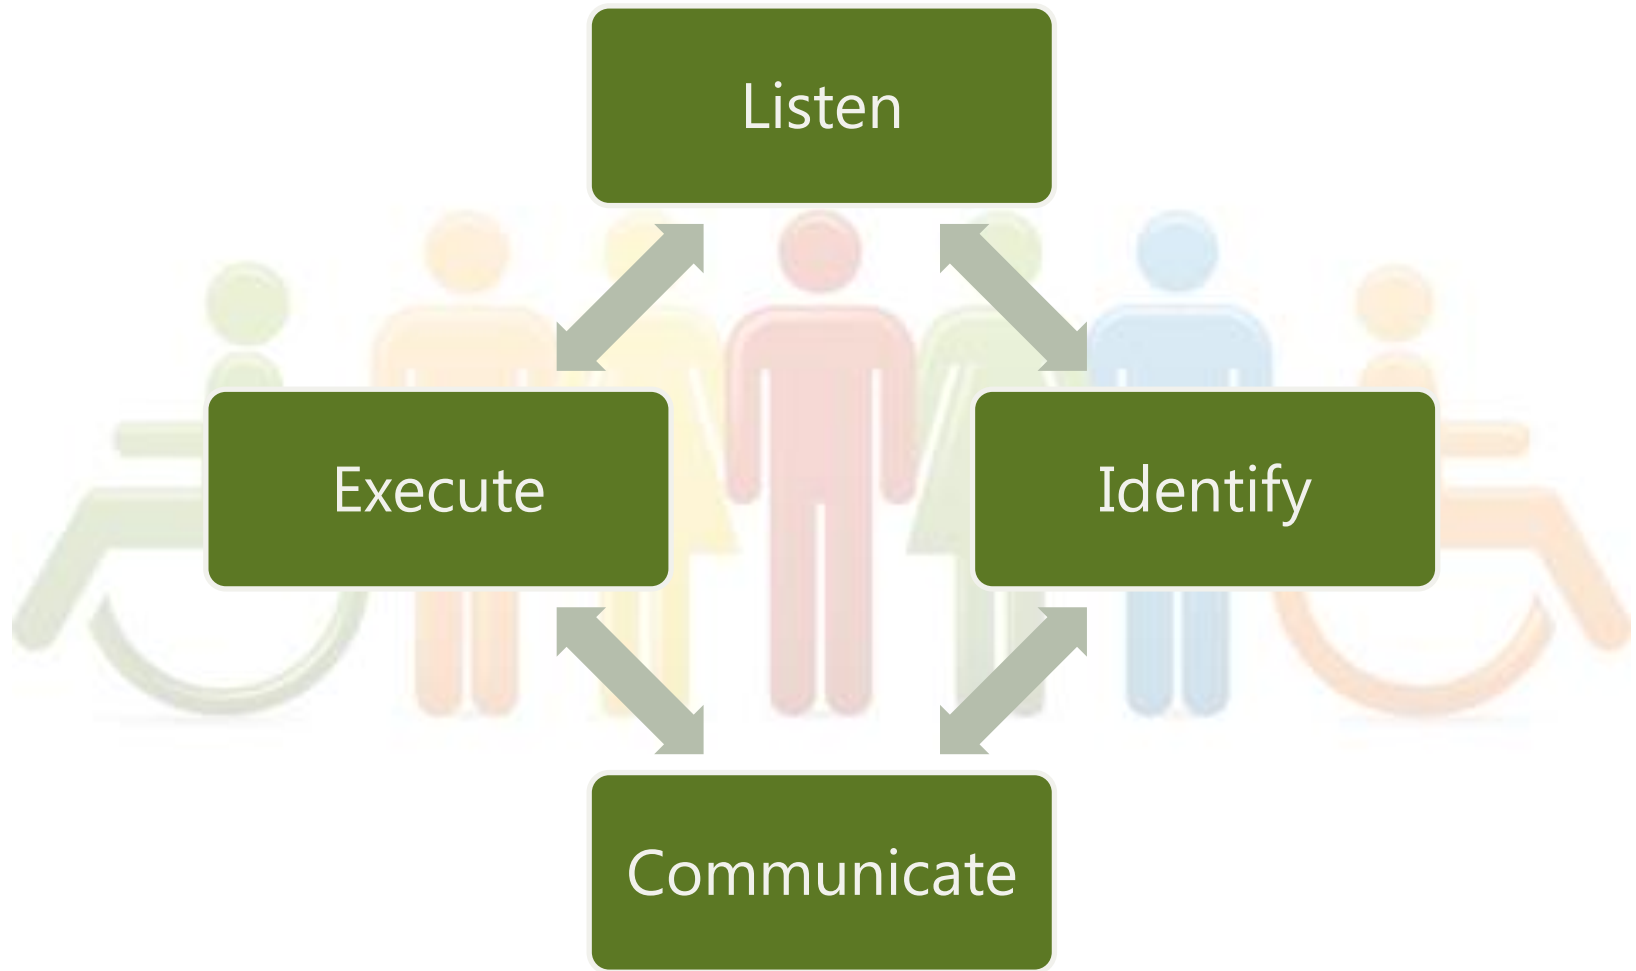

Local Self-
Governance

Citizen
Engagement

2. Where to Invest?

3. Approach

4. Outputs

- The youth center for technical creativity:
 - Robotics assembly and competitions
 - Radio broadcasting and engineering

- Viunichy Park development and restoration:
 - Installation of benches and trails
 - Planted new trees and shrubbery

5. What We've Learned

6. What's Next?

What does it take to continue along this path?

Success

Satisfaction
