

MUNICIPALITY OF KARIBA

ZIMBABWE

2.Recap: Your action plan/project ideas

- The plan noted the need for attention to the following aspects as part of the turnaround strategy:
- A need to engage in political lobbying to get support for the Solid Waste Management Plan.
- Organising a sustainable SWM fee model.
- Increasing overall resource recovery at a reasonable rate of 15% over the next three years.
- Through behaviour and attitude change to strive for 100% collection coverage in the city.
- Importantly it was recognised that change of this nature would require increased participation from stakeholders in resource recovery.

3. Interim development:

DEVELOPMENTS/ CHANGES	INITIATIVES BEING IMPLIMENTED	INITIATIVES PLANNED
Set up a Local subsidy fund in SWM	Increase coverage for SWM	Upgrading of the Landfill site
Introduction of CBOs in SWM	Removal of waste in undesignated sites	Purchase a landfill compactor
	Pilot project on organic recycling	Initiate community based post – package recycling projects
	Improvement of bin revolving fund	
	Develop Elephant/baboon proof communal bins	

4. Project prioritisation:

	LANDFILL	COMPACTO	RECYCLIN
Total cost	Very High	High cost	Low cost
Environmental gains	Very High	High	High
Health benefits	High	Very High	High
Job creation	Low	low	Very High
Inst Capacity improvement	Very High	High	High
Cost effectiveness	Low	Low	Very High
Financial sustainability	Low	Low	Very High
Achievability	Low	High	Very High
Beneficiary population	Low	High	High
Helping the poor	Low	Low	Very High
Basis for other goals	Low	High	Very High
Participation	Low	Low	Very High
Social impacts	High	High	Very High

5. About the envisaged project:

COMMUNITY BASED RECYCLING

1. Selection of 9 groups of 10 people (one per ward).
2. Training of the groups and register them as CBOs.
3. CBO cleaning the town and give public awareness (KPA).
4. CB revolving fund for purchase of bins
5. CB green belts (Parks and Gardens).
6. Recycling: composting, plastics, glass, canes

	NYAM	MHKOMB	HEIGHTS
No. of illegal dumpsites	92	17	5
Total waste	804 009	2189	29463
Burning sites	12	3	0

6. Know-how Exchange:

- Training on waste recycling for staff and CBOs
- How to set up a sustainable Community recycling project
- The availability of markets for recyclable waste
- The financial management of a community based recycling project
- The availability of low cost Technology
- Municipality-Community partnership options available
- Exchange notes with other thriving projects
