

EL QRAYEH

Towards Eco-Tourism

Informations:

El Qrayeh Village:

- 5 Km from Sidon - 50 Km from Beirut
- Over 2000 years old
- Presence of historical sites
- Rural unexploited areas

Project Summary:

To develop EL Qrayeh to be a destination for Eco-tourism within the frames of a Global LED Plan.

Bottlenecks:

1. Low income families.
2. Early retirement. (43%).
3. Unemployed women (67%).
4. Unexploited lands.
5. Absence of global governmental LED.

A photograph of a cave interior. The cave has a low, arched ceiling and rough, layered rock walls. The floor is a smooth, light-colored concrete. In the distance, a statue of a religious figure, possibly the Virgin Mary, is visible, illuminated by a small light. Several other lights are hanging from the ceiling. The overall atmosphere is dim and historical.

Vision:

Conservation of our Heritage
and rural aspect.

Goal:

Creating new business
opportunities

Objectives:

- New employment opportunities
- New business opportunities.
- Preservation of the village.
- Preservation of the archeological sites
- Involving all society parties: Youth, women, retired.
- Exploitation of lands.
- Limiting migration.

Action Plan:

- Committee (Municipality – Civil society)
- Training.
- Developing the pathways.
- Marketing (Local and foreign)
- Restoration of old town
- Creating guest houses within the village
- Inauguration
